Summary

I am a third-year Information Technology student at the **University of Cebu - Lapu-Lapu and Mandaue (UCLM)).** I am also a resourceful, highly communicative, and adaptive professional with a strong track record in team collaboration and presentation and also patient, approachable, and encouraging individual who loves meeting new people and helping them build confidence in their language skills. Known for being an easygoing conversationalist and a clear communicator, I focus on creating a comfortable, stress-free environment where students feel safe making mistakes and learning at their own pace.

Projects

Tuon.net , *An AI Powered Study App* 2026 – Present
-helps student study by giving them a website that converts pdfs, word documents, ppts and more into flashcards, quizzes and sample practice exams that is also enabled for multiple users at once in the quiz battle section

Armonia IT Services , *An organization website for a startup company.* 2026 – Present
-a website design for displaying information, contact details and past projects of our startup company. We aim on helping small businesses build their own websites tailored to what the actually need.

Maribago Grill , *A modern, organic-luxe website for a premium Maribago Grill Dining.*
-a completely redesigned digital presence for Maribago Grill, featuring a warm "Bone White" and "Eucalyptus Green" color palette. The site utilizes high-transparency glassmorphism, elegant typography, and a refined UI for navigation, menus, and reservations to reflect their premium resort-style dining atmosphere.
